- Product weight (lb): 121lbs
- Weight incl. Packaging (lb): 132lbs
- Carton dimensions (WxDxH) inch: 34.7"x31.3"x25.3"

Loudspeakers
- Built-in speakers: 2

Accessories
- Optional accessories: Mounting brackets/ stands, Set up Remote RC2573GR, Clone box CLON99BK (wired), Wireless SmartLoader 22AV1120

Highlights

Wireless SmartLoader
Provides the ability to copy easy and wireless all programmming settings from one TV set into other TV sets in less then a minute. The feature ensures uniformity between TV sets and significantly reduces installation time and costs.

Total Program Control
Locks in commercial customized settings and features with a master TV set-up, significantly reducing installation time. Ensures uniformity across displays and prevents guests from altering pre-set formats.

SmartCard™ Expansion Slot
Permits OEM or 3rd party decoders and controllers to be installed inside the television for custom designed component integration. Eliminates the need for external set-top decoders, controllers, or data terminals. Integrates system for superior control applications. Allows expandability for future upgrades. Prepared for digital applications.

SmartPlug & Serial Xpress
The Smartplug interface permits OEM or 3rd party decoders and controllers to interface with the TV.

Incredible Surround™
Incredible Surround is an audio technology from Philips that dramatically magnifies the sound field to immerse you in the audio. Using state-of-the-art electronic phase shifting, Incredible Surround mixes sounds from left and right in such a way that it expands the virtual distance between the two speakers. This wider spread greatly enhances the stereo effect and creates a more natural sound dimension. Incredible Surround allows you to experience total surround with greater depth and width of sound, without the use of additional speakers.
